

# Ayomide Kolade

Software Developer

✉ ayomikolade2003@gmail.com    📁 Portfolio    in LinkedIn    🌐 github.com/swissguarde

## SKILLS

---

- Languages - Javascript, Typescript
- Libraries & Frameworks -jQuery, React, Gatsby, Next.js, Node.js
- Tools - Git, GitHub, Webpack, Vercel, Heroku, Firebase, Wordpress

## PROFESSIONAL EXPERIENCE

---

### Frontend Developer Intern

09/2022 – present

Chingu

- Worked with designers to transform wireframes and mockups into interactive and visually appealing web pages.
- Optimized website performance and SEO enhancements for various projects, resulting in improved search engine rankings and user experiences.
- Used Git version control for code management and collaboration.
- Utilized MongoDB as the NoSQL database to store and manage data, ensuring efficient data retrieval and storage for our web apps.
- Integrated Prisma ORM to streamline database interactions, enhancing data modeling and query capabilities, and improving overall application performance.
- Worked with the backend development team to design and implement RESTful APIs for data retrieval and updates.

### Freelance Frontend Developer

- Designed and developed a visually compelling **website** [🔗](#) for an architectural firm, effectively showcasing their portfolio of projects and range of services.
- Web design for an interior design company, showcasing their portfolio of projects and services.
- Created a fully functional ecommerce website for a client, enabling them to sell products online.

## PROJECTS

---

### CR7 Ecommerce Store [🔗](#)

This cr7 themed store is a top-tier ecommerce web app built Next.js. It offers a feature-rich shopping experience, from browsing to secure payments via Stripe.

GitHub repository here [🔗](#)

- Developed a dynamic and responsive web application using Next.js, leveraging its server-side rendering (SSR) capabilities for optimized performance and SEO.
- Integrated Sanity as the Content Management System (CMS) to empower non-technical users to easily create, edit, and manage content, resulting in a more efficient content workflow.
- Designed and created a user-friendly and visually appealing front-end interface, providing a seamless user experience and intuitive navigation.
- Utilized Stripe as the payment gateway for secure and efficient online transaction for one-time payment and payment confirmation emails.

### Drizzle [🔗](#)

GitHub repository here [🔗](#)

- Used firebase as the backend technology stack to handle real-time data storage, user authentication, and secure data synchronization.
- Implemented user authentication and authorization features using Firebase Authentication, enabling users to register, log in, and securely access their profiles and design projects.
- Optimized web application performance with Next.js's server-side rendering (SSR) capabilities, resulting in improved SEO and fast page loading times for a smooth user experience.

## EDUCATION

---

### Bachelor of Science

University of Lagos

09/2019 – present
